

INTRODUCING PACapp®

THE BREATHTAKINGLY SAFE, FREE TO USE, AND EASY WAY TO TRANSACT WITH YOUR DIGITAL ASSETS.

FEATURES

- PAC Global coin ready. (Multi-asset bandwidth built-in/more digital currencies and assets coming soon)
- Revolutionary way to Send and Receive your digital assets, use \$PACTAG, a unique, SAFE, and immutable User ID available exclusively through the PAC Global Blockchain Network, one of the world's largest, fastest, and safest, pure Proof-of-Stake, decentralized networks.
- Eliminate the reliance on complicated and dangerously error prone wallet addresses.
- Pay to your friend in seconds via the Contacts List.
- Scan QR Code enabled.
- Allow users to easily find your \$PACTAG without reliance on a wallet address. (This can be disabled/enabled on Settings)
- Control who can send you requests: all, few, or none at all through Settings.
- Built in Activity Tracking and Insight helps real-time monitoring of all Requests, history, favorite \$PACTAGS, real-time Market price and metrics, and much more.
- Built in Referral Code system – Allows user to gain PAC Global in any format or application desired.
- Maximum Security-Secure your App by using Security Lock, 2FA and TouchID/FaceID/Finger-print, all built in.
- Noncustodial Wallet - Your Wallet is always safe.
- Safely Import/Export your safety pass phrase to external wallets (BIP39 enabled).
- Upcoming PAC web wallet direct integration- Browser ready.
